# OUR VIEWERS FEEDBACK

**Sergey, Moscow**

Thank you very much! Great content! I work at home, **I watch the channel during the whole working day.** It does not distract and it creates a good mood. Great interesting camera angles!!!

NATURE**  
ANTISTRESS TV CHANNEL

**Tatiana, Moscow**

Thank you! This is the only channel I watch — this is **my salvation during maternity leave.** It is very beautiful, and it is something that we lack so much every day. Our children aged 4 and 1, 4 years are also very fond of watching Wild nature. **I am very grateful to you for the project.**

**THROUGH THE EYES  
OF A TOURIST**

**Alla, Norilsk**

I`m an avid tourist. I don't need the faraway sea coast, just give me a river, a tent, mountains and a fire! I am no longer at the age of easily running across mountains, but I still love outdoor recreation. I was lucky: in Ufa I accidentally came across your channel. **I climb the mountains with you, sit by the fire, catch fish, build dugouts:)) I enjoy life to the full extent.** Together with you, I admire, rejoice, worry about failures and sing. Well done! I am an active, positive, responsible person. I wish good luck to the channel. I'm with you!!

**Tatiana, Kovrov**

Good afternoon. I came across the channel by accident. The catchy name Live Actively caught on. I have selected several programs for myself: Planet, Zumba, meditation for sleep. I try not to miss the program. It's cool to be healthy in the morning and in the evening.

**Elena, Yekaterinburg**

Hello. I'm from Yekaterinburg. I'm 61 years old. I have been doing Qigong exercises for the first month since I discovered your beautiful channel Active Life. I have had cervical osteochondrosis since I was 20 (working at a computer). I always tried to lead a healthy lifestyle. I was engaged in dancing, skiing and swimming in winter, and now I do yoga. Your trainer Shamil is very good at explaining exercises and meditations with images. Moreover, I noticed that from class to class there is progress that I am gaining and I get into the spirit of Qigong. I'm already breathing deeper, trying to push oxygen through the three centers, inhale through the Yin point and exhale through the Yang. **After classes, I feel light in my whole body and a lifted mood.** Thanks. I will continue to study. Because I understand that I have not mastered much yet, and everything is still ahead.
